

PUR800- Galleria Blvd, Tabor to Enzo- Addendum 2

- Remove tree stakes and guy wires.
- There is a wax myrtle that was planted next to a utility box on the northwest corner of the Tabor and Galleria. A holly and a sumac are growing alongside of the wax myrtle. The holly and sumac should be removed and the wax myrtle should have pine needles put around it.
- See the attached map for standards the maintenance width on each side of the road. The areas marked with green should be maintained from 10 ft behind the sidewalk to the curb and the areas marked with blue should be maintained from the back of the sidewalk to the curb.
- The City will be responsible for any initial maintenance and repairs needed for the irrigation system.
- The City will be responsible for the backflow preventer inspections.
- Fresh pine needles should be put out by January 15, 2017. Pine needles in the subsequent years of the contract should be put out by March 1.
- Grass areas should be maintained as Bermuda and not Fescue.
- The selected contractor is not responsible for replacing any planted trees that have died.
